## Vayavya Labs

**HQ:** India

**INDUSTRY:** Software Engineering & Automotive Technology

**KEY BACKERS:** Indian Angel Network (IAN)

Vayavya Labs specialises in silicon-to-systems software engineering services. Our expertise spans niche areas such as digital twins (virtual ECUs), coverage-driven verification and validation (V&V) for ADAS/AV, cybersecurity, new architectures for software-defined vehicles, and full-stack development for embedded systems. It serves top semiconductor and automotive companies worldwide.
